

Leaders of Tomorrow!

MERI Training Weekly Report

Mentee Name: Bilen Gizachew

Mentor Name: Abigeya Getachew

The AWiB monthly program I attended was the one with the title of Sankofa: Looking back to move forward. Since the program ended at around 2 local I couldn't attend the others.

.What stood out for you?

- I will never forget Ms/ Mrs. Aster only because she came well prepared and the way she delivered her idea was really astonishing. The body language and the annunciation of some words and even the content of the topic she was talking about was very informative.
- The chair arrangement was different from what I'm normally used to.

What did you learn?

- That some impressions you make can be very lasting.
- I should read more about what's happening in Ethiopia currently. What caused to be where we are today

Are the programs you attended complementary to the Meri program?

Yes, there was a lot of networking and learning involved.

What did you get out of Networking?

We really didn't get to network much cause we had to take the pictures but from the little time we had we exchanged insightful ideas.

Address: Megenagna, Silesi Sehine Business Center, 8th floor, #809
